We Offer You More Coverage Options

CyberSolutions

CyberSolutions provides the robust protection you need to respond to and recover from a data breach or cyber attack. The policy provides coverage for the costs associated with computer software restoration, data recovery, third-party liability protection, response efforts, defense and liability, and identity recovery for key individuals within your organization.

What CyberSolutions Coverage Can Do

CyberSolutions would have provided the support and protection these companies needed to respond to the following situations:

A burglar stole a laptop from a store manager's office with data on clients, including Social Security numbers. Clients had to place a fraud alert with credit bureaus and monitor their credit reports.

A virus infected the computer system of a convenience store and stopped it from functioning properly, resulting in loss of income.

A PC was hacked by a disgruntled former employee of a gas station, causing software programs to crash and data to disappear. The company had to hire an outside IT firm to recover data and a public relations firm to explain the incident to customers.

Employment Practices Liability

Employment practices liability coverage, available by endorsement from EMC, pays for the liability damages and defense costs due to employment discrimination, wrongful termination or harassment charges brought by full-time, part-time, temporary and seasonal employees.

Here are some examples of when you might need employment practices liability coverage:

- Wrongful termination, discharge or dismissal
- Harassment, including sexual harassment
- Discrimination (based on age, gender, race, color, national origin, religion, sexual orientation or preference, disability or pregnancy)
- Retaliation
- Wrongful failure to employ or promote
- Violation of an individual's civil rights relating to a wrongful employment act

When Employment Practices Liability Coverage Can Help

A convenience store owner was sued by a long-time elderly employee for wrongful termination. The employer had to move the employee to other positions in order to accommodate the employee's failing dexterity due to arthritis. The employee continued to have performance issues and was let go after several warnings. The suit was dismissed nine months later, but cost the employer \$25,000 in defense costs in addition to lost time and productivity.
